FD-302 (Rev. 3-3-59) FEDERAL BUREAU OF INVESTIGATION

1

Date 7/13/64

M. WAYNE BOLLETER, Chief Medical Photographer, Methodist Hospital of Dallas, 301 West Colorado Boulevard, advised he resides at 4041 Sunvalley Drive, Dallas, Texas, and has home telephone number FR 4-7313.

BOLLETER advised that on Monday, November 25, 1963, Dr. JACK C. HARPER and Dr. A. B. CAIRNS, the Chief Pathologist at Methodist Hospital of Dallas, came to the Medical Photography Department and requested that he take some pictures of a bone specimen.

During the course of taking these pictures, BOLLETER stated Dr. HARPER related that this piece of bone was found by his nephew, BILLY A. HARPER, about twenty-five feet south of the location where President JOHN KENNEDY was assassinated. BOLLETER said, as he recalls it, he took two 35 millimeter color slides of this bone specimen, one slide showing the convex view, and the other slide showing the concave view.

BOLLETER stated he was commissioned by Dr. HARPER to take these color slides, and when they were returned from processing he gave the color slides to Dr. HARPER.

In addition to these color slides, BOLLETER said he took ten black and white 35 millimeter pictures of this bone specimen. He said he took these as a matter of record and no prints have been made of these black and white pictures. He said that Dr. HARPER has not seen these black and white pictures.

Later, on November 25, 1963, after he had taken the photographs for Dr. HARPER, BOLLETER stated Dr. HARPER again stopped by the Medical Photography Department and told him that he should keep the information about the above-mentioned bone specimen in strictest confidence and he should not tell anyone. BOLLETER said he has not related the above incident to anyone, other than possibly Mrs. PAULETTE CAROTHERS, who is the other medical photographer employed in

by Special Agent A. RAYMOND SWITZER/ds Date dictated 7/11/64

This document contains neither recommendations nor conclusions of the FBI. It is the property of the FBI and is loaned to your agency; it and its contents are not to be distributed outside your agency.

the Medical Photography Department.

BOLLETER furnished the above-mentioned black and white 35 millimeter film which contains the ten photographs taken of the bone specimen.

BOLLETER requested, on the instructions of THETFORD BOLTON BOONE, D.D., Administrator, Methodist Hospital of Dallas, that this film be returned to Dr. BOONE.
